President's Message

Hello Everyone,

We want to give a big thanks to Doug Nyholm, for his great presentation on Utah National Bank Notes. I had no idea there are so many different notes just from Utah, and that some of them are very rare with a big price tag. Thanks Doug for sharing your time and expertise with us.

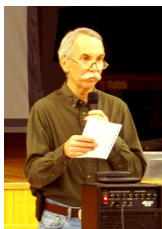

This months meeting is on the 3rd Thursday of November, because the 4th Thursday is Thanksgiving. We will hold club elections for next years officers. The NUTS club is only successful if we get lots of participation from the members. For those that haven't served yet, it's time to step up and contribute, so come to the meeting with an idea of what office you want to run for next year. You will get to know the members better, it's not hard, and it's lots of fun. There is no program for November, because of Club elections, but we want everyone to show off what they collect besides coins, tokens or medals. I will be displaying some of my knives, I have collected through the years. Feel free to display whatever you want for everyone's enjoyment. There will be plenty of tables for you to set up on.

Mark your calendars for December 11th, for this year's Club Christmas Dinner. This year it's being held at Joe Morley BBQ, 100 West Center Street, Midvale, at 6:30pm in their banquet room. They will be serving chicken and ribs, with all the trimmings, buffet style, and all the soda you can drink. Plan on being there.

Since this is the last time I will be writing a President's message. I want to say it was a pleasure to serve this past year, and I will do all I can to help the new president in fulfilling the duties of this office.

Hope to see you November 20th,

Tom Davis

Our prayers and best wishes go out to
Boyd Pickering and Shane Poyurs.
We hope you have a quick recovery.

Guest Speaker: Douglas Nyholm

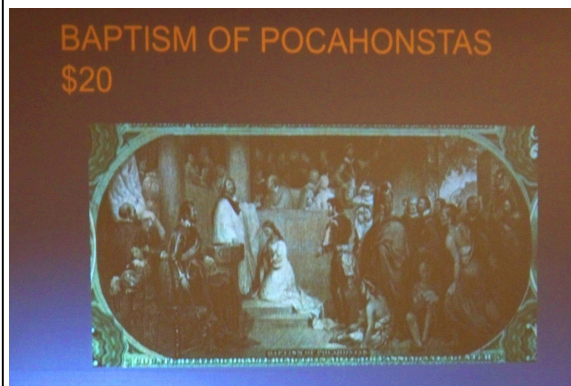

Utah National Bank Notes

Doug explaining
the different types
and features of the
bank notes

The "C" in the corners are roman numerals for 100.
The bank note has two serial numbers one of them
for the federal and the other for the bank.

The back of the notes had various
themes portraided, such as: Baptism
of Pocahontas (\$20), Landing of
the Pilgrims (\$1), Sir Walter
Raleigh (\$2), Landing of Columbus
(\$5), Declaration of Independence
(\$100), Surrender of General
Burgoine (\$500) and Washington
Surrendering his Commission
(\$1000).

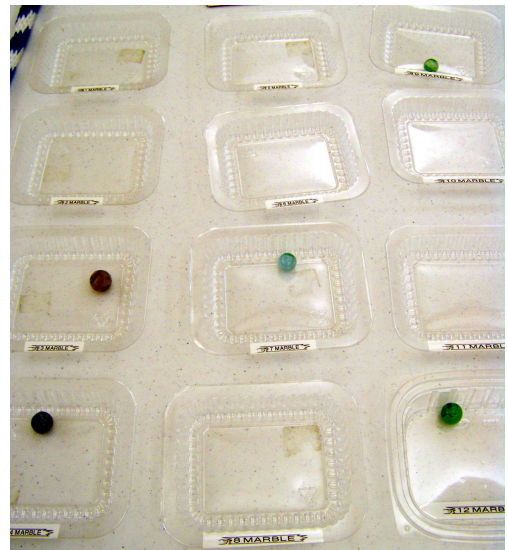

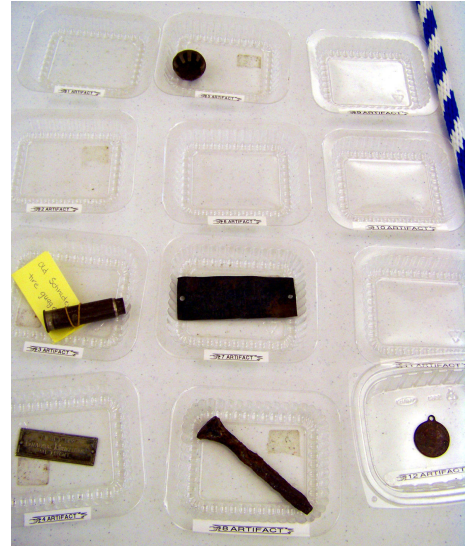

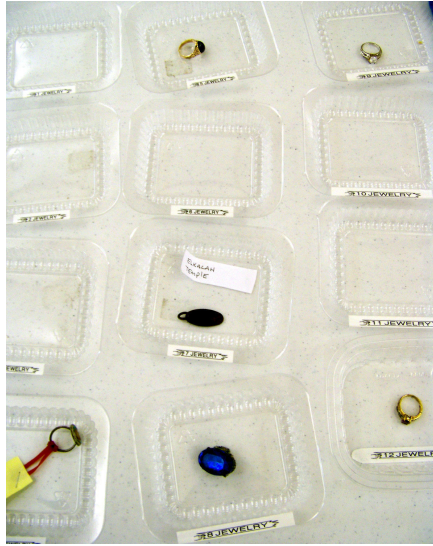

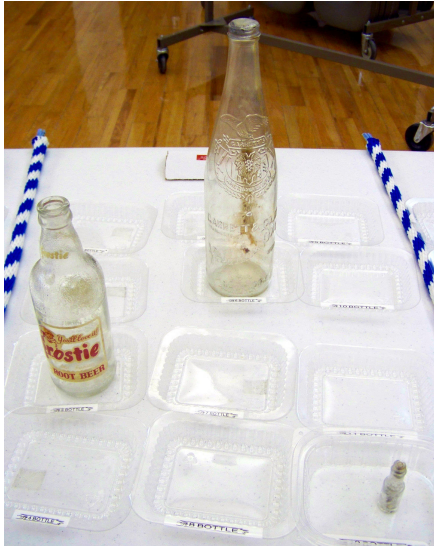

One way to tell the difference between a Utah Territorial national bank
note and a State of Utah note is by the seals; the territorial notes have
points. There were 17 Utah Territorial banks and 8 of them have no
known existing notes, making Utah bank notes the sixth rarest type in
the United States.

Book Review

The Expert's Guide to Collecting & Investing in Rare Coins: Secrets of Success

Written by: Q. David Bowers former ANA President with foreword by Kenneth E. Bressett. Published in 2006 and has 646 pages.

ISBN: 0794821782 Suggested Retail Price of \$19.95 found on Amazon for \$14.85 to \$23.08.

This book covers more than just U.S. coins; it also includes proofs, commemoratives, tokens, medals, currency and bullion. The chapters that cover each type of metal, go through its history by denomination, explaining the design changes, rarity, strike quality and key dates. Davis Bowers takes a broad historical approach to coin collecting and explains how we came to use money in our day to day transactions.

The Experts Guide is for semi-beginners, looking to improve their numismatic skills, and start their path to becoming experts. David offers good strategies for making purchases and avoiding over paying. His examples from historical trends explain his thought process when analyzing a new purchase. He also describes how to use the grading and rarity scales when examining a coin. His four step techniques are, 1st observe the numerical grade on the holder; 2nd assess eye appeal at first glance; 3rd evaluate sharpness and relative features; and 4th establish a fair market value.

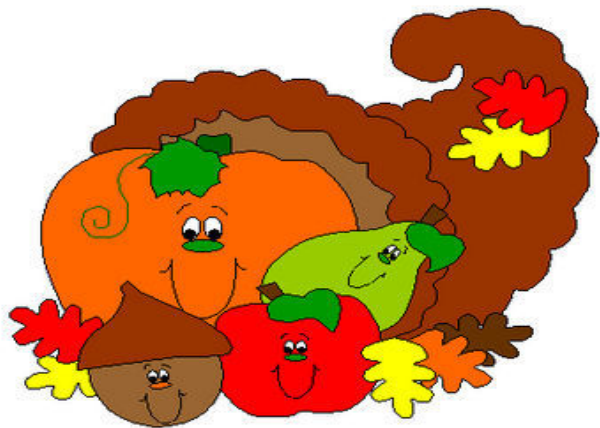

Most of the book has black and white photos, but it does have 16 colorful pages of various coins and currency inserted into the middle. For currency collectors, the book only scratches the surface. You would want to purchase more books to cover specific types of notes you are collecting. Although the book was published in 2006, it is still relevant today. I would recommend this book to all coin, token and currency collectors.
